Thanks Shilpa,

Glad to hear all went well for Molly! I'll send a calendar appointment for February 15 shortly.

Hello Kimberly.

I apologize for the delay in our response. Molly has started her leave earlier than expected. She had a baby boy! She and her son are doing well. It looks like the following dates will work for Valerie, Joe and I. Valerie will be stepping in for Molly while she is on maternity leave, so please include her on future correspondence related to this site.

Feb 15, 1-2p
Feb 16, 10-12p or 1-3p

Thank you,

Shilpa S. Patel

Good afternoon Molly and Shilpa,

While we are awaiting the completion of reviews, lets get a meeting scheduled. Looks like MMD is available these dates and times:

Feb 7, 10-12p EST
Feb 8, 2-3p
Feb 15, 1-3p
Feb 16, 10-12p or 1-3p

Please let me know which works best for you.

Hi Shilpa,

We are drafting an implementation letter from us to Molly on the internal memo that Water Resources Division sent to MMD on the venting groundwater. WRD recently issued a revised memo clarifying that the venting groundwater is well above applicable water quality standards and the facility is not afforded the option of a mixing zone. However, from a

public health perspective, calculations indicate that there is sufficient mix in the river such that contaminants released from BASF will not be present above criteria in the area around the public water intake. As an added measure of protection, our drinking water program has issued the city of Wyandotte a revised monitoring schedule that calls for increased monitoring of the raw and finished water. I believe the first round of samples was collected earlier this month and results are pending.

Our attorneys are reviewing the existing state consent judgements and we expect to hear back from them by the end of January. We would like to meet with EPA in early February to discuss a strategy. We'll be in touch after the holidays to get something on the calendar.

Thanks and have a good holiday season.

Dale

Hello Dale and Tracy

It looks like I missed Kimberly before she left for the holidays. I was wondering if you had any updates you can share.

Thanks and Happy Holidays.

Hi Kimberly.

Hope you are well and getting excited about the upcoming holidays. I wanted to touch base before the holiday break to see where EGLE was in finalizing the drinking water memo regarding the Wyandotte drinking water system. I believe on our last call when we were discussing the MOU you mentioned that it was in the final stages of its review. We appreciate you sharing some of the information included in the memo on the call and are wondering if you know when the final memo and associated data will be ready to be shared with us.

Thank you and have a happy holiday.
